Synopsis English:

Everything is reduced to money, economy and numbers, so it is life. The repetition, the emptiness invades our understanding of a world that tries to give economical value to everything in it. Since childhood I have a conflict with numbers, they bore me, the abstraction of them moves me away from the real, from what I consider real, from emotions, people, nature, life... In an economical world, everything is tiresome, jobs are transformed in a parody, trapped in this realm man can only count.

Synopsis Spanish:

Todo se reduce al dinero, la economía y los números, así es la vida. La repetición, el vacío invade nuestra comprensión de un mundo que trata de dar valor económico a todo lo que contiene. Desde la infancia tengo un conflicto con los números, me aburren, la abstracción de ellos me aleja de lo real, de lo que considero real, de las emociones, la gente, la naturaleza, la vida ... En un mundo económico, todo es aburrido, los trabajos se transforman en una parodia, atrapado en este ámbito el hombre sólo puede contar.
